

# INDEPENDENT AUDIT & CLAIM INSPECTORATE

## TECHNICAL ADVICE TO THE ISO-TANK INDUSTRY

To whom this may concern

Please allow me to introduce myself. My name is Ian Stewart Taylor. I am 56 years of age, of British nationality.

I have been in this highly specialized industry now for over 30 years. I have worked across Europe, Korea, China and many parts of South East Asia. The knowledge that I have acquired over this period has been immense. I feel that it is now time to share that knowledge in Thailand.

I can say in all honesty that there is nobody in Thailand that has the combined knowledge of chemical logistics, tank container maintenance, chemical cleaning and all environmental and safety issues that are applicable to this industry than myself.

Indeed, I am only aware of 2 other people in South East Asia with the same combined knowledge.

My intention as stated above, is through, consultation and training, to improve the standards and operating procedures of existing businesses here and surrounding countries. Thereby improving all aspects of worker safety and the environment.
