

INDEPENDENT AUDIT & CLAIM INSPECTORATE

TECHNICAL ADVICE TO THE ISO-TANK INDUSTRY

Save costs

Why send your technical guy half way round the world?

With over 30 years in the ISO tank container industry, you can be assured that this accumulated knowledge is ideally located to take care of your tanks across Asia and the sub-continent.

Below are just a few of the services we can offer

- *Full cleaning and repair depot audit service, operational, safety and environmental. Over 200 questions with point scoring system, resulting in clear and simplified depot evaluation.*
- *Travel to tank location to investigate damages to your tank container. Full independent report service, with accurate repair advice to ITCO standards.*
- *Tank to tank cargo transfer SOP experience.*
- *Claims management system of all major and minor damages, improper cleaning/repair and re-charge claims.*
- *Relay accurate reports and impartial advice with your insurance company.*
- *Technical advisor at tank location whether to assist with loading or discharge.*
- *From feasibility study to full design and project management of new cleaning and repair stations.*
- *Complete depot management software integration system for tank cleaning and repair terminals.*
- *Complete set of training seminars from "Industry Awareness" to "IMDG Regulations"*
- *Local surveying service coming soon.*

For further details please do not hesitate to contact me direct by email or telephone.

Looking forward to hearing from you.
